I serviced in the 74th from June 1968 on assignment to unit Ft. Lee Virginia and arrived in Vietnam September 1968 with advance party and I left for the states July 9 1969 and discharged on arrival Oakland California. I was actually drafted in July 67' and some how ended up in the Medical Corp. After Combat Medic School MOS 91A10 I continued into specialized training as an Operating Room Tech. 91D20 at Ft Leonard Wood Hospital for OJT. After completing OJT I was assigned to my first permanent assignment Irwin Army Hosp. Ft Knox Ky. After 1 plus months I received orders for Ft Lee Va. There were numerous regular and draftee soldiers assigned to fill all the vacant positions in the unit. I was one of 5 OR Techs assigned to the OR. I'm not sure of the unit personal number but there was only 43 reserve members left on arrival in Vietnam. I'm sure it was much better to go to Vietnam as a unit that was together at Ft Lee 3-4 months than arriving as an individual.
