I am a vietnamese citizen. I joined the ARVN Signal Corps, I was 18 years

old then in 1969, innocent of politics. Giving that I was born in South Vietnam, either I had to join the ARVN or to defect to Vietcong. I chose the former because I lived in the area controlled by the South Vietnam Government. All during my hitch in Arvn, I was always wondering why American troops must be present in Vietnam and Vietnamese had to fight each other and Americans protested the war. The rationale that the United States fought the war to protect freedom and democracy in South Vietnam did not make sense and viewed with suspicion by many Vietnamese. The South Vietnamese Government and its Military forces were not good guys to many Vietnamese people, with corruption and brutality. Then Americans left. The Vietnamese settled their own war with the defeat of the South. Then I went to prison _ so-called reeducation camp. People were forced to dislocation to new economic zones. Properties seized or confiscated,so-called anti-bourgeois campaign. Rice farmers were robbed of land to join collective production communities. THEN, the dim view of a society with freedom and democracy began to take shape in many Vietnamese' thought, even in some communist fighters. More people started to flee by boats, and America gave them asylum... These events were long ago but the memory is still fresh in many Vietnamese' mind. The withdrawal of American troops and the fall of South Vietnam served as an eye-opener to many Vietnamese from both sides of the frontier, eventually. We knew what were precious after having lost them. You guys Americans came to Vietnam with the ideas in your mind to protect the freedom of South Vietnam. These ideas always hold true with time, no matter what the politicians now and then want to distort them for their own benefit. You came to Vietnam to protect freedom

and democracy. BE PROUD of that. Soctrang, Mekong Delta, Vietnam.

//Charles W. (Chuck) Bartholomew

My name is Charles (Chuck) Bartholomew and I have been looking at the websites for the Quarter Cav which was part of the 1st Division in Vietnam. I was an Air Force radio operator/repairman and served with the 1st Division with a Captain Jerry Richards. He was the FAC and together we were at Phu Loi from the fall of 1965 until March 1966. We were one team of 16 total Airman/Officer teams that went over to country in October 1965. Eleven teams were formed initially and went over with the main group. I was a member of five additional teams that were formed at Shaw AFB, SC, 507th DASC, with us and five officers from New Mexico. We flew out on a C130 two weeks later and beat them there. Five teams were assigned to each batallion and Richards and I were the lone team to go with the Cav. It was good duty. The Captain went out each day and flew marking operations in a little Piper Cub - Bird Dog and I drove back to

the compound and tried not to look too bored. We were only TDY and all the airmen were short timers. Replacements came over for 12 months. I was discharged in June 1966, only three months after returning home. We lost one airman in a mortar attack at the batallion level. Until today I had no idea that Phu Loi was involved in the 1968 attacks.

I was with the 539th trans co 520 trans bn. mos 68g20 1968 1969. Never worked mos! [familiar]? Spent most of my time tdy to 605th, 520thq, 539th motor pool and bone yard. I was all that I could be, I saw the [World]!!! then I came back to [The Real World]!!!! spit on in california, [thanks jane, nancy, bill, hillary, and all the rest of you]!!!!!! [Id probably be locked up if I printed these descriptive words] people who indirectly killed my Friends, Brothers, & Sisters, by giving aid and comfort to the enemy, your protest' did exactly that'''''' To all my Brothers And Sisters of all the Armed Forces of my our COUNTRY, I still LOVE you every one, and feel very priviledged to be one of you. My mind has been messed up all these years, I think maybe its back on track. I

think we the living, owe it to the Dead and the current members [who cannot talk because of their active status]to force our elected officials, who send us to war, to either allow us to fight that war without outside interferrance by the news media, protester's,politicians,or any other self serving group's interferrance. I a lowly sp5 honorably discharged from the U.S.Army 1970 say [lets demand of these people we have hired to operate our government] they allow all members of all branches of service to protect themselves by returning fire. Any official, civilian or military, President or private, who causes death to one in harms way by refusing ground or air support, or not supplying adequate numbers for units or missions that person or persons should be tried for war crimes!!! See told you guys my mind is messed up people say Im crazy for thinking and talking this way. What do you guys think? Were those Dust Off Slicks in Viet Nam and elsewhere loaded with political debris or were they loaded with payment for the privilege to live in this country? I've been an ostrich head in sand all these years,quiet because of the spit,wasnt worthy of being called American, is that familiar? Hey I just pulled my head out of the sand!!! America's most pressing problem is not insurance reform, [I think that until all veterans needs have been adressed, [home, health, etc are secondary. My personal opinion is that our country is at the final stages of being torn apart from within!!! Sometime's think the lucky ones names are on the wall. Im still proud to have served and to be one of you!!! Again I LOVE ALL YOU GUYS, past and present, living and dead!!!!!!!!!! To whoever is responsible for this site !!THANKS!!way.P

I wanted to make sure anyone living in Washington State near Bellingham know that the Vietnam Traveling Wall will be here in Bellingham July 9-12th. (I-5 exit #255. Look for MEMORIAL PARK. on James street) Bellingham recently tried to become a sanctuary for military deserters, but our 15000 veterans put their foot down and said NO WAY! it is so important we now show our support for our veterans. I encourage anyone in the Pacific Northwest to come to the wall and help us reclaim our town and

put the pride of being American back where it should be.

another amazing day in the trenches, when things just become to much,i am feeling overwhelmed, you amaze me. i am fortunate to have an open door policy when in my office, my brothers find me. today i learned something about, this kind soul who stops by each day with some kind words or to shoot the "!!!!". some say he is an angry person, some judge him very wrong. he is one of my homeless veterans who asks for very little. at one time he was also a horse vet, i love it. he came to me looking for some basic items when he moves into his own place, (towles,sheets,pots and pans) knowing i was a person who did things like this. no problem my husban and i can downsize what we have, since i have tried to find resource in our community with not much luck. he has the most wonderful, sincere smile, loves to talk. today i learned not from the veteran he is a congressional medal of honor recepiant. he gave so much and ask for very

little, you amaze me, each of you.

To all of those individuals that served in the Vietnam War. I want to thank you for your service and sacrifice. You will never be forgotten. I was too young to serve in Vietnam. Thanks for the memories. I was assigned to the 605th Trans when it was formed at Ft. Riley in Sept 1965 and moved with them to Phu Loi, arriving in country in March '66. Serving in Phu Loi until March '67, when I was assigned to a temporary detachment at Long Bien in support of the 11th ACR as they arrived. On the 1st of April the 605th was transferred from the 765th BN to the 520th BN and the detachment in Long Bien was transferred to the 388th TC in Vung Tau. My Phu Loi days were over, but I continued in the aircraft parts business with the 388th and later with the 611th TC in

Thanks for a wonderful site and collection of personal stories. This is a tremendously valuable service to those of us who struggle with fading memories of our tour in Vietnam. It is especially important that we do everything in our power to remember and honor those who paid the ultimate price for the freedom we enjoy today in this great country. I arrived in Vietnam in October, 1965 with the 155th Aviation Company. Soon after, we were redesignated A Company, 1st Aviation Battalion, 1st Infantry Division at Phu Loi. I crewed a UH-1B gunship (tail number 64-13916 / call sign Rebel-36). Soon after I rotated out, on June 8, 1966, my gunship pilot, Major Phillip Holmes, Jr. was KIA while on convoy support on highway 13 near An Loc. I would appreciate hearing from anyone who served during that time and especially anyone who remembers Major Holmes.

merry christmas jim, another year passes, and so many memories cross my mind. my path continues with honor reaching out to our veterans, they continue to give more to me than i to them. i hope this finds you and your loved ones healthy and together. i will be driving a bus load of veterans to the zoo for the christmas lights and meal. this is such an emotional time for them, and it is important for those who work for our veterans to be there, to listen or just give a hug. hugs are powerful and they are free, what a concept. love to you and still hoping to meet someday.

I was stationed in Phu Loi, Co A 1st AVN BN 1st INF DIV. From Dec. 66 - Nov. 67. I flew crew chief (door gunner) on Huey D models. My ship No. was 767. I was with the 2nd Airlift Comancheros. My door gunner was Johnson. (I can email picture of our patch) I believe that we had the Big Red One ensigna on the nose. We also had the face of a bulldog on large doors. (May have been our call sign???) I also had my daughters nickname CASSY on large door. We also had Comancheros name and picture on the Pilots doors. Some of the person I served with are Toth, Adams, Wilber Howell, Hardman, Willis, and Catt. If any of you guys remember contact me. Would like hear from you. Thanks from a fellow Vet Harry A. Jim I am just overwhelmed by your site. I was at Phu Loi Mar 68 to Mar 69 as Svc Btry commander 2nd Bn 13th Arty, 23rd Arty Grp. Spent a lot of time coming and going at that air base, hooking ammo out to our fire bases all over the area. From far away the Black Virgin still looks the same, but not up close. I can see and feel that you have put your heart, soul and a lot of hard work into this site. I will pass it on to everyone that I know who will appreciate it. My name is Johnny (Huy) Nguyen and my father was a member of Headquarter 23rd 2nd Battalion, 13th Artillery Group at Phu Loi during the War. I have been trying to locate my father since I came to the United States in 1992. My father supervised the mess hall at this unit and his last name was Schmidth. I am emailing you today to see if you have any information or pictures about this unit that can aid me with my search. Also if you know of anyone who served in this unit please let me know. Thank You for your time, Johnny Nguyen

Thank you Jim for adding my letter to your site. Everytime I drive onto a military base or I'm at an airport I stop to thank the person in uniform that they are always appreciated and I'm proud of him or her for keeping our nation free. When I'm in the px (or anywhere)I go out of my way to thank any military personel I see. It is an honor for me. It is humbling for me. You know Jim, in 2003/12/03 I finally accepted my medals just to be an example for my grandson. 33 years later. I was honored by the vets of many wars coming over to me, thanking me. It wasn't about me. It was about all of you honorable vets and that 6 year old grandson. AP, etc. interviewed him and I couldn't hold back a flood of tears. When I was asked to speak to the standing room only gathering, all that came out was "these medals do not belong to me, they belong to my Lord and savior, Jesus Christ". God bless you all, God bless America..Jim Pilkenton
