Hi,

I was in HQ HQSB 8/6 Arty, 1st Infantry Division based in Phu Loi from March 1968 until division HQ moved north to Lai Khe.....I believe of our battery units: A Battery, B Battery, C Battery, D Battery and the 4.deuce Lighthorse Mortar Platoon were usually moved around as division duties warranted and maybe A battery was along the perimeter.

I still have a few photos of Phu Loi base camp area where we were placed.

We had 155mm towed, 155sp and 4 8"sp.....and the mortar platoon.....

I am happy to share the photos as someone may spot someone or remember the area.

I now live in Australia as the backlash from the war finally got to me and I immigrated here, where the Aussie VN vets and people in general are and have been since my arrival in 1981, very kind and honorable. the VA back then did want to know me and lost all my paperwork but have been blessed with some help from the veterans (RSL) here.
